KEYCREATOR®

Software Maintenance Program

Give your professionals the best tools and resources possible to get the job done faster and with the highest quality. With Kubotek's Software Maintenance Program, you receive upgrades of the latest versions of Kubotek software, as well as requested software enhancements. You also gain access to the Kubotek Customer Portal, your customized support center to access software licensing information, and a customer forum to discuss topics with other Kubotek customers.

What You Get

The Latest Software Releases	Receive new versions of Kubotek software to take advantage of the latest technology to speed your development and manufacturing process. Gain competitive advantage through increased productivity and save money from costly software purchases in the future.
Software Upgrades	Receive service pack upgrades to the current and previous software releases. Service packs contain enhancements to the current versions and enhancements requests reported by you our customers.
Kubotek Customer Portal	You receive access to our customer portal with exclusive access to invaluable information and access to company resources.
My Account	24/7 accesses to your account and licenses gives you the flexibility to change and move licenses and critical information regarding your account.
Downloads	Instantly download the latest and previous versions of Kubotek software releases, service packs, and technical notes.
Technical Support	Automated support requests with the ability to prioritize and categorize your issue to ensure a prompt response.
Web Forum	An informal customer forum to discuss all Kubotek software. This group is also monitored by developers of Kubotek software giving you unique access and a voice into the future development of the software.
FAQ	Search the knowledge database for questions and answers regarding Kubotek software.
